Subject: Re: About the CEC'2019 100-digit challenge

Dear Suganthan,

For your information, I have created a package for the competition in Python, in which I have applied last changes. I have several algorithms in Python, so that wrapper is useful for me, and maybe it could be useful for others.

It is in the official repository for Python (installed directly by pip), <https://pypi.org/project/cec2019comp100digit/0.4/>

the source code is available at <https://github.com/dmolina/cec2019comp100digit>

I also announced in my own blog:

<https://dmolina.github.io/en/>

Best regards, Daniel Molina
